

Inova at-a-Glance 2015

About Inova

Inova is a not-for-profit healthcare system based in Northern Virginia that serves more than 2 million people each year from throughout the Washington, DC, metro area and beyond. Inova is a comprehensive network of hospitals, outpatient services and facilities, primary and specialty care practices, and health and wellness initiatives.

Inova encompasses the full array of health services, including the area’s only Level 1 Trauma Center and Level 4 neonatal intensive care unit. We are home to many nationally and internationally recognized programs, including Inova Heart and Vascular Institute (IHVI), Inova Translational Medicine Institute (ITMI), Inova Dwight and Martha Schar Cancer Institute (ISCI).

Inova is a global leader in the science of genomics and the new era of personalized health, which uses a person’s genetic make-up, family and medical history, and lifestyle to determine the best prevention and treatment. We connect researchers, clinicians and empowered consumers to improve patient care, enhance prevention and encourage wellness.

Caring for Our Community

As a not for profit healthcare system, we have a covenant with our community to provide excellent and compassionate care at a “best value” price to our patients, regardless of ability to pay.

Our Mission

Inova’s mission is to improve the health of the diverse community we serve through excellence in patient care, education and research.

Our Vision

Inova seeks to optimize the health and well-being of each individual we serve.

Our Service Promise

We seek every opportunity to meet the unique needs of each person we are privileged to serve – every time, every touch.

Genomic Science, Research, Innovation

Inova's commitment to research and innovation focuses on bringing new treatments to the patient's bedside safely and quickly, advancing clinical innovation in the Washington, DC, metropolitan area and beyond.

Inova Center for Personalized Health

Inova is a global leader in developing and applying personalized health. Connecting researchers, clinicians and empowered consumers, we integrate genomic research for patient care, prevention and wellness. Our personalized health approach enables individuals to live longer, healthier lives.

inova.org/itmi/inova-center-for-personalized-health

Inova Dwight and Martha Schar Cancer Institute

The Inova Dwight and Martha Schar Cancer Institute is an international center for advanced cancer care and research. Collaborating with clinical and scientific partners, we conduct genomic and translational research to better understand, predict, prevent, and eliminate cancer. Our personalized health approach enables us to create individualized treatments and preventive analytics to predict illness for every unique individual and family for whom we provide care. inova.org/cancer

Inova Translational Medicine Institute (ITMI) is leading the transformation of medicine through genomic science from a reactive, one-size-fits-all model to a predictive, preventative and personalized approach to care. ITMI researchers and physicians build and examine genetic models that help answer questions about individual predispositions to a disease, optimal treatment, and ultimately prevention. inova.org/itmi

Inova Heart and Vascular Institute (IHVI) is Northern Virginia's largest cardiac program, offering advanced diagnostics, care protocols and specialized services in a patient-centric environment. inovaheart.org

Innovation Health offers high quality, affordable healthcare benefits in Northern Virginia. Innovation Health is the result of a unique partnership between two industry leaders: Inova and Aetna. This partnership combines longstanding local, regional and national experience to help improve the quality of healthcare while giving our members access to the leading doctors and hospitals in the area. inova.org/innovation-health

Education

Inova partners with area universities to foster a highly sought after learning environment for the next generation of physicians and healthcare professionals. Inova's program is based on individualized health sciences, population health and genomic research.
